

**PATHOLOGY
CONSULTANTS**
OF NEW MEXICO

FOCUSED ON PRECISION

FOCUSED ON COVID

PCNM IS EXPANDING ITS FIGHT AGAINST COVID-19 IN NEW MEXICO

GET ACCESS TO COVID-19 TESTING

PCNM is a strong supporter of our state in efforts to identify and slow COVID-19. We are testing on our Hologic Panther Platform - a high throughput technology that allows our lab to process up to 1,000 tests per day. We will actively support hospitals, surgery centers, clinicians, local and state governments, and private industry in their efforts to reopen our state.

The high sensitivity of our testing platform, at 99%+, makes it an ideal platform to confirm negative results from other testing methodologies with known high error rates.

ABOUT THE TEST

- Collection Method: Nasal Swab and Oropharyngeal Swab
- Collection Device: Aptima Multitest Swab
- Specificity/Sensitivity: 99%+
- Turnaround Time: 24 hours
- Includes Weekend Service
